

Hosted Desktop Professional

Hosted Desktop Professional is an award winning service which delivers the benefits of cloud computing to your business

Hosted Desktop Professional delivers Windows 7, Microsoft Office 2010, Exchange email and a centralised file storage facility with disaster recovery built in.

Access your business applications, including finance software and CRM packages, from any location on any device.

Hosted Desktop Professional increases the productivity of your staff with real anywhere access, high performance and high availability.

Hosted Desktop Professional is the **award winning** service that delivers the real benefits of cloud computing to your business. Access your corporate desktop, company data , Exchange email and business applications securely over the internet from anywhere in the world.

Hosted Desktop Professional provides a **Windows 7 desktop, Microsoft Office 2010 and Exchange email**. There's no need to spend your capital on servers or software. The service removes the headache of maintaining your IT, allowing you to focus on running your business.

If you do not require the full Microsoft Office 2010 suite you may be better suited to **Hosted Desktop Standard**. This delivers all the benefits of Hosted Desktop Professional, with **Open Office 3.2** instead of Microsoft Office 2010. You can also add specific Microsoft applications to Hosted Desktop Standard individually – such as Outlook 2010 or Access 2010.

Cloud Computing

Cloud Computing is the delivery of IT services over the Internet.

Hosted Desktop is the single biggest change in business technology since the Internet itself.
