

Customer Sub-Processors

Issue Date: 28/04/2026

Version: 1.7

1 Introduction

- 1.1. We are Air IT Ltd, a UK based IT Managed Service Provider offering IT support including complementary services such as Communications, Cyber Security, Backup and Connectivity.
- 1.2. For the purpose of fulfilling our obligations under our Contract with customers we may need to process, collect, manage and store customer personal data to allow us to successfully provide our services and fulfil our obligations.
- 1.3. Air IT work with various third-party providers / sub-processors, to assist with providing contracted services to our customers. This document provides further details about our sub-processors and should be viewed in conjunction with the Privacy Notice, Privacy Policy and Terms and Conditions.
- 1.4. Due to the nature of our business, the services we provide our customers are bespoke and vary for each customer, consequently the third-party sub-processors may vary for each customer. Therefore, our sub-processors have been broken down into IT Managed Service and Key Additional Services.
